

# Times Tables Practice

## Other Games

### 1.0 Jenga Times tables

What you need:

- Jenga
- pen

Write the different times tables, that you are practicing, on the jenga pieces.

Players take it in turns to remove a brick and place on top, do the times tables and add it to their score.

The player who knocks down the tower loses 100 points.

The winner is the person with the highest score.

### 2.0 Domino Wars

What you need:

- 9-9 Dominoes

Turn all the dominoes over so you can't see the dots. Each player picks a domino and works out their times tables, finding the product of the two numbers on each side of the domino. Biggest answer wins.

### **3.0 Domino – Choose 5**

Materials you need ...

- Double 9 dominoes
- Paper and pencil

Place all the dominoes face down and shuffle. Each player picks 5 Dominoes and turns them over. They need to work out how much each domino is worth, by calculating a multiplication using the value on each side of the domino. They need to place the dominoes in value order and then calculate the sum of all the products. The player with the highest scores wins a point.

### **4.0 Hop, Skip, Jump**

Let the children take it in turns to say the next multiplication in the times table. How far can they get step counting?
